J 80

**National Standard of the People's Republic of China**

**GB/T 3811-2008**

**Replace GB/T 3811-1983**

---

**Design Rules for Cranes**

**起重机设计规范**

**Issued on April 30, 2008**

**Implemented on June 1, 2009**

---

**Jointly issued by the General Administration of Quality Supervision, Inspection and Quarantine  
and the Standardization Administration**

## Contents

1 Scope.....	3
2 Normative References.....	3
3 Classifications.....	3
3.1 Division of Work Class.....	3
3.2 Classification of Complete Crane Machine.....	3
3.3 Classifications of mechanisms.....	3
3.4 Classification of structural element or mechanism element.....	3
4 Calculated load and load combination in crane design.....	3
4.1 Principles.....	3
4.2 Calculated load and load coefficient.....	3
4.3 Basic design method, load case load assembly in the metal structure design of crane.....	3
4.4 Load, load case and load assembly in mechanical design of crane.....	3
5 Structures.....	3
5.1 Metal structure members of the crane.....	3
5.2 Principle of structural calculation.....	3
5.3 Material and permissible stress.....	3
5.4 Structural member and joint strength calculation.....	3
5.5 Rigidity calculation of crane and the structural elements.....	3
5.6 Calculation for stability-protection of element.....	3
5.7 Calculation on flexion-resisting of slab piece and shell.....	3
5.8 Calculation for fatigue strength of the structure.....	3
5.9 Construction requirement.....	3
6 Mechanism.....	3
6.1 Principles for Design Calculation of the Mechanism.....	3
6.2 Design calculation on the universal parts of crane.....	3
6.3 Calculation for selection of specific part of crane.....	3
7 Electricity.....	3
7.1 General provisions.....	3
7.2 Power source and power supplying.....	3
7.3 Power distribution system.....	3
7.4 Electric protection.....	3
7.5 Electric control.....	3
7.6 Work environment for the electronic equipments.....	3
7.7 Electromotor selection.....	3
7.8 Wires, cables and their laying.....	3
7.9 Electric load lifting devices.....	3
7.10 Auxiliary electronic equipments.....	3
Chapter 8 Integrated antidumping stability and wind resistance and antiskid security.....	3
8.1 The integrated antidumping stability of cranes.....	3
8.2 Wind resistance and antiskid security of the cranes.....	3
9 Safeties.....	3
